ABOUT ME

Full-Stack .NET Developer with 3+ years of experience in building scalable enterprise applications using ASP.NET Core, C#, Angular, SQL Server, and MongoDB. Experienced in Microservices Architecture, REST APIs, Azure Cloud, RabbitMQ, and CI/CD pipelines using Jenkins. Proven track record of delivering high-performance solutions in the Insurance domain.

WORK EXPERIENCE

Aug 2022 – Present | Nagpur, India

Software Associate | smartData Enterprises Inc.

- Developed and maintained enterprise applications using ASP.NET Core, C#, Angular, SQL Server, and MongoDB.
- Designed and implemented Microservices-based solutions for insurance domain applications.
- Migrated existing Microservices to Microsoft Azure, improving system scalability and performance by 40%.
- Designed and maintained 20+ Microservices, improving scalability and reducing deployment time by 30%.
- Optimized database queries and application workflows, reducing latency by 25%.
- Implemented CI/CD pipelines using Jenkins for automated deployments.
- Collaborated directly with clients for requirement gathering, solution design, and project delivery.
- Led offshore development activities and coordinated with cross-functional teams.

KEY PROJECTS

Insurance Portal

- Insurance Portal for General Liability, Cyber, Excess, Workers' Compensation, and Inland Marine policies.
- Multi-carrier Excess Insurance Platform for policy comparison and purchase.
- Azure Cloud Migration Project for Microservices modernization and performance enhancement.

Tech Stack: ASP.NET Core, Angular, REST APIs, SQL Server, Mongo DB

AI-Powered Business Intelligence Platform

- Developed an AI-powered application to extract business information using company name and address.
- Retrieved website URLs, social media profiles, contact details, and business descriptions from public sources.
- Integrated LLMs for intelligent data extraction and validation.
- Built REST APIs using ASP.NET Core and a responsive UI using Angular.
- Leveraged OpenAI APIs and prompt engineering techniques for business data enrichment.
- Improved data accuracy through AI-driven matching and verification.

Tech Stack: ASP.NET Core, Angular, OpenAI API, Mongo DB

SKILLS

- | | | | |
|----------------|-----------------|--------------|--|
| • ASP.NET Core | • SQL Server | • Jenkins | • Prompt Engineering |
| • .NET Core | • MongoDB | • CI/CD | • Agile Scrum |
| • C# | • REST APIs | • Git | • Clean Architecture |
| • Angular | • Microservices | • Postman | • Entity Framework Core |
| • TypeScript | • RabbitMQ | • Swagger | • Consul (Service Discovery & Configuration) |
| • JavaScript | • Azure | • OpenAI API | • HashiCorp Vault (Secrets Management) |

EDUCATION

MCA | Dr. A.P.J Abdul Kalam Technical University, Lucknow | 2020-2022

BCA | Babu Banarasi Das Institute of Technology, Lucknow | 2017-2020

CERTIFICATIONS

Oracle Cloud Infrastructure Foundations

Machine Learning with Python

Python for Data Science
